

IMPORTANT ANNOUNCEMENT ON THE MEGA CLIMA & WATER EXPO 2021 EDITION

New Dates: September 8th to 10th, 2021

Following recent happenings threatening large professional events with international participation, at this time, we were recommended to postpone the Megaclima & Water Show to September 8th to 10th, 2021.

Our recent engagement with the officials tasked with managing and ensuring that the guidelines for covid 19 protocols are maintained clearly shows that we cannot have more than 800 visitors for our annual show due to hold in May. This show hosts around 3500 HVAC professionals from around the World yearly.

Following that and guidance from the Nigeria Centre for Disease Control (NCDC), we are more and strongly prepared to host you with an increased size and capacity of scale to accommodate all attendees and Exhibitors.

You can see the Covid 19 Procedures for Travelling Participants from our website or [this link](#).

The health and safety of the community is of utmost importance to us the organisers of the Megaclima West Africa. The clear engagement with key health and safety management stakeholders makes this action the only prudent course for us.

Please know we worked day and night to do everything possible to ensure we provide a world-class and safe event.

We are heartbroken and know this is a very challenging time for everyone, and appreciate your understanding and support.

We must follow the decisions and guidelines of the government and hope to see you in September for the 5th Edition of the Megaclima HVACR & Water Expo West Africa, Annual Event 2021.
