Leading the Charge for Water Innovation: Securing West Africa's Water & Sanitation Future

Ghana Water Expo: Connecting Global Solutions to a Billion Dollar Market Opportunity

Elan Expo proudly presents the Water Expo Ghana, set to take place from March 3-5, 2026, at the Accra International Conference Centre in Accra, Ghana. As West Africa's premier event for water, wastewater, and sanitation technologies, the WAVE Expo Ghana is strategically timed to address Ghana's urgent national vision of achieving "sustainable basic water and sanitation for all by 2026".

The nation's Water, Sanitation, and Hygiene (WASH) sector requires an estimated \$1.7 billion in annual investment up to 2030, creating a significant and immediate demand for international expertise and technology. The WAVE Expo is the essential platform for solution providers to access this high-priority market.

Addressing National Water and Sanitation Challenges

Government and private sector projects are driving monumental investment in the water sector. Exhibitors and visitors will connect directly with the demand created by major initiatives, including:

- **WASH Investment Programs:** Ghana is seeking significant funding to achieve universal access to basic water and sanitation services by 2030, with a focus on both urban and rural communities.
- **Infrastructure Rehabilitation:** Major water infrastructure projects are ongoing across the country, such as the Nsawam Water Supply Rehabilitation and Expansion Project and various Small Towns Water Supply and Sanitation Projects.
- **Rural Water Delivery:** Reforms at the Community Water and Sanitation Agency (CWSA) are professionalizing small-town water delivery and require sustainable funding and technology for expansion.

- **Climate Resilience:** The government has signed a Presidential Compact on Water Sanitation and Hygiene to improve public health and increase climate resilience, including policy measures to protect water bodies from pollution.

A Powerful Co-location: Doubling Your Market Reach

The Water Expo Ghana (WAVE Ghana) is strategically co-located with the Mega Clima Ghana HVAC+R Expo, creating the most comprehensive platform for modern infrastructure in the region. Held concurrently on March 3-5, 2026, at the same venue, this synergy offers exhibitors an exceptional return on investment by:

- **Doubling Visitor Traffic:** Connecting the core sectors of Water Management with Climate Control (HVAC+R) to maximize engagement with over 7,000 industry professionals.
- **Creating Cross-Industry Opportunities:** Bridging the supply chains for water treatment and distribution with the essential building, sanitation, and construction industries.
- **Positioning Brands for Sustainable Infrastructure:** Establishing the event as the premier hub for integrated water and building solutions in the rapidly growing West African market.

Connecting The Full Water Value Chain

WAVE brings together the full value chain of the water sector, offering unparalleled opportunities for companies specializing in:

- ✓ Water & Wastewater Treatment - Filters & Filtration, Purification methods & cleaning, Cooling water treatment, Sludge, Energy Efficient Desalination.
- ✓ Transport & Storage - Pipes & Pumps & Valves, Meters, Distribution and Sewage Networks, Storage, transport and distribution.
- ✓ Process Control & Engineering - Management / Control Modules, Measuring and regulating equipment, Asset management, Consultancy and Design Services.
- ✓ Flood Control / Storm Water - Coastal protection, Dams & dam systems, Flood prevention, Risk and disaster management.

Why Exhibit: Your Gateway to Growth in Ghana & Beyond

- ❖ **Meet Decision Makers:** Connect with government officials, utility leaders, and top buyers driving \$1.7B in WASH investments.
- ❖ **Showcase Innovation:** Present your latest water treatment, smart systems, and wastewater solutions to a specialized audience.
- ❖ **Build Partnerships:** Network with suppliers, clients, and potential collaborators for long-term projects.

- ❖ **Maximize Exposure:** Co-located with Mega Clima Ghana HVAC+R Expo, reaching twice the audience from construction and building sectors.
- ❖ **Gain Market Insights:** Attend expert panels and workshops to stay ahead of trends, regulations, and upcoming projects.

Elevate your brand. Drive sales. Lead sustainable water solutions in West Africa.
